Good morning everyone,

Please the WBL/Internship opportunity below with your students. This is a paid internship through the City of San Diego. If you have any students participate, please report it as a WBL activity, thank you.

Good Morning,

Our partners at the City of San Diego Parks and Recreation Department are offering a variety of paid student internship opportunities with up to 300 hours of work. Join them **next Wednesday, November 17th from 2:30 – 5:30 pm for a virtual job fair** to hear about the diverse positions in the Parks and Rec Dept and how to apply! This is a terrific opportunity for students to learn skills, gain experience, and develop a professional network in one of the largest workforces in the region with possible opportunities for full time positions later in their career. City employees enjoy competitive benefits, generous savings plans and opportunities for advancement. To be eligible for the internships, students need to be between the ages of 16 to 24.

The job fair will feature a resume workshop, an overview of the application process, and members of the Department presenting their work and the available internship opportunities in the following areas:

- Citywide Maintenance
- Golf Course Administration
- Natural Resources
- Park Asset Management
- Park Ranger
- Recreation & Aquatics
- Safety & Training
- Web Developer

Students can learn more about the internship opportunities and begin their applications using these websites...

- City Parks & Recreation Internship page: [Internship and Mentorship Opportunities | Parks & Recreation | City of San Diego Official Website](#)

- City volunteer and internship listings: [MyImpactPage - City of San Diego - Search Volunteer Opportunities by City Departments - Park and Recreation \(betterimpact.com\)](#)

See the attached flyer and event details below for more information.

Event Details
